## SUMMARY

---

Full Stack Engineer and Application Developer proficient in modern front end technologies such as React and Angular, as well as back end technologies like Node.js. Strong believer in the importance of accessibility and inclusive design, with a track record of implementing these principles in all projects. Proven ability to collaborate effectively with cross-functional teams, and a drive to constantly learn and improve skills. Looking for an opportunity to use my skills and passion to make a positive impact.

## EDUCATION

---

**Southern New Hampshire University**, B.S. Computer Science cons. Software Engineering

Expected Graduation, May.2026

**Generation USA Junior Cloud Practitioner Program**, February 2022

Certified Cloud Practitioner, AWS

## TECHNICAL SKILLS AND SOFTWARE PROFICIENCIES

---

JavaScript • SQL/MySQL • Linux • GIT • CSS • HTML • Adobe Creative Suite • AWS • Windows Server  
Adobe Creative Suite • Windows Server • ServiceNow Scripting • ServiceNow Implementation •  
ServiceNow Service Portal • Flow Designer

## PROJECT EXPERIENCE

---

December 2022

### Akima Couture Rentals

Created a ServiceNow Service Portal and custom application for a garment rental company that included a Flow Designer flow that automated tasks such as sending delivery/return notifications, assigning task, as well as creating and updating records.

- Dedicated Developer and Scrum Master
- Utilized Service Portal to develop a custom theme and portal.

December 2021

### Developed By AKIA

Created a web-development portfolio website using HTML CSS and JavaScript.

April 2019 to August 2019

**Apple Inc.**

Chicago, IL

**Code Camp Counselor**

**Coding fundamentals and Programming Robots – Worked with children ages 8-12 exploring fun activities to learn how to code Sphero robots, using Swift. Exposing children to coding fundamentals like commands, loops, and functions, then use blocks of code to create a program using the Sphero Edu app for iPad.**

Lead a summer program working with children ages 8-12, teaching them how to code Sphero robots, using Swift.

During the program I:

- Collaborated with the lead Creative Pro, I was able to lead a group of 20 children creating various programs and storyboards, to teach children coding fundamentals using the latest technology and Sphero robots.

March 2019 to July 2019

**Black Girls CODE**

Chicago, IL

**Code Club Tech Assistant**

Lead an after school program of intercity girls, in grade range from 6-8th, teaching them fundamentals of JavaScript and Python web development, as well as mobile application development.

During the program I:

- Collaborated with the lead Code Club Instructor. I was able to lead a group of 15 girls in creating an Ice Breaker Quiz App, using drag and drop code combinations of JavaScript and Python. We also were able to use what we learned to push the code to an Android App Emulator and view the quiz apps on an Android Device.
- Lead the group through a one hour workshop using Scratch where they created projects around the theme of "Imagine a World". Working at their own pace the girls learned about different JavaScript fundamentals such as while loops, and for loops.
- Encouraged the use of different images as well as drew out different sprites and backgrounds to bring each child's idea to life.

October 2016 to February 2017

**I.C. Stars Chicago**

Chicago, IL

#### **Technical Intern**

Rigorous 4 month technology training and leadership program offering: 1000+ hours of immersive, hands-on, project based learning in a fast-paced agile environment.

During the program I:

- Collaborated with teammates to design, develop and deploy a website that handles traffic of a vast number of users in relation to clients RFP requirements
- Served in multiple roles such as: Developer, Quality Analyst, and Designer.
- Developed and implemented user stories and acceptance criteria for web application for multiple financial clients.
- Participated in standup meetings, to report on current progress in app development.
- Developed web application using HTML, CSS and JavaScript frameworks.
- Developed design deliverables, relative and on-brand and on strategy within the digital requirements of stakeholders.

May 2007 to Current

**Developed By Akia**

Chicago, IL
